Transportation / Terms and Conditions of Sales

Charges F.O.B. shipping point. Freight prepaid on orders of \$2000 or more shipped to one destination. Standard stock orders will be shipped within 24 hours. A \$20 drop ship fee on all orders not shipping to ordering location. Customers importing products may be subject to duties, fees and processes as assessed by current Canadian import regulations that should be considered and understood as a part of supply chain coordination. Mactac products manufactured in our Belgium facility are clearly marked on the individual boxes.

Shipments Title and risk of loss to all products purchased shall pass to purchaser upon delivery to a common carrier, regardless of the freight terms or method of payment

Terms The net amount of invoice is payable in full within 30 days following date of invoice. Invoices not paid within 30 days of due date shall thereafter bear monthly service charges at a rate of 2% per month on the unpaid balance until paid. If in Mactac's opinion, PURCHASER's financial condition does not justify continuance of production or shipment on the terms of payment specified, Mactac may require payments in advance.

Price/Core Size Prices are per roll. Approximate prices in Sq. Ft. are shown for comparative purpose only. All products on 3" I.D. cores unless otherwise stated.

Inventory - Service status may change without prior notice.

S (Stock Products) - Orders placed before 3 PM EST ship same day. Orders placed after 3 PM EST ship next day.

M (Make to Order) - Orders less than 10 rolls in by 12 PM EST ship the same day. Orders in after 12 PM EST or more than 35 rolls ship within 48 hours.

O (Special order) - Not an inventoried item, longer lead times and minimum orders may apply. Orders can't be cancelled after 24 hrs.

F (Finish to order) - Full web roll that can be custom slit to customer requirements. Full roll must be used. Lead time 3-5 days. Additional costs apply.

Custom All custom orders will require a blanket PO and must ship complete within a 6 month period. Custom orders may only be cancelled within 24 hours of order entry. Purchase Orders must be faxed. Run tolerance is +/- 10%.

Cancellation Only upon terms which will compensate Mactac.

Taxes All prices are subject to Federal, State and Local Taxes when or where applicable.

Returned Goods All Mactac material sold is the responsibility of the purchaser after it leaves our shipping dock and may not be returned except for reason of defects in manufacturing. Claims must be made within 30 days after receipt of the merchandise. Returned merchandise will not be accepted unless authorized in writing by Mactac North America. Return authorization for stock orders will incur a restocking charge of 25% plus return freight costs.

Excuse Mactac shall not be liable for failure to perform by reason of strikes, fires, floods, unavoidable accidents, wars, and delays in transportation, acts of God, or other causes beyond its control.

Applicable Law This agreement shall be governed by and construed upon the laws of the State of Ohio and Federal law where applicable.

The information given and the recommendations made herein are based on our research and are believed to be accurate, but no guarantee of their accuracy or completeness is made. In every case, user shall determine before using any product in full scale production, or in any way, whether such product is suitable for user's intended use for their particular purpose under their own operating conditions. User assumes all risk and liability whatsoever in connection with their use of any product. The products discussed herein are sold with an Open-Image WarrantySM, as to merchantability or fitness for a particular purpose, or any other warranty, expressed or implied. No representative of ours has any authority to waive or change the foregoing provisions, and no statement or recommendation not contained herein shall have any force of effect unless in an agreement signed by the officers of seller and manufacturer. Nothing contained herein shall be construed to imply the nonexistence of any relevant patents or to constitute a permission, inducement or recommendation to practice any invention covered by any patent without authority from the owner of the patent. The following is made in lieu of all warranties, expressed or implied: Seller's and manufacturer's only obligation shall be to replace or credit such quantity of the product proved to be defective at its discretion.

Custom Converting / Custom Slitting / Custom Sheeting

MACmark Slitting (width) - 24 Hour Lead Time

Offcuts will be scrapped unless otherwise requested. Orders entered for converting and unconverted materials may be slit and shipped separately. MACmark converting charge applies to each finished roll. Punching is a universal slot pattern, edges scored, not stripped.

Converting Parameters	Finishing Charges
Punching 60" Web - 15" or 30"	No Charge
Punching 48" Web - 30"	\$12 per punched roll - must take 18" unpunched offcut
60" Web - Slit to 15" or 30"	Custom
48" Web - Slit to 15", 24", 30"	No Charge - Must take offcuts
Other Slit Sizes	\$6.00/finished roll + \$30.00 set-up charge

IMAGin, PERMACOLOR, REBEL, Paint Mask and Application Tape Slitting (width & length) 3-5 day lead time

The following charges only apply to standard contract pricing. Unless authorized by pricing, SPA prices will not be used to calculate slitting charges.

Converting Parameters	Finishing Charges
<6" width	Add 10%
Equal or > 6"	Add 5%
>150' length	Custom

Sheeting Graphic Material

The following only apply to wallNOODLE®, wallPOODLE Permanent, ROODLE™ and REBEL® products. Note: Finishing charges will be included in your quoted price.

THERMACOLOR®

A family of high-quality low temperature thermal films designed for overlamination and encapsulation of graphic images. Ideal for protecting and enhancing inkjet, electrostatic, digital or laser printed graphics from moisture, dirt and oils, as well as other potentially damaging effects of the environment, including color fading caused by prolonged exposure to UV light. The film is available in a variety of widths and thicknesses, to add depth and vibrance to underlying images. Products can be used on any hot-roll laminator.

Rivets. Corrugations. Complex curves. No surface is too challenging for MACmark® 6600 high performance cast vinyl. Engineered for ultra-conformability.

In addition to our custom colors, MACmark 6600 Series is available in 53 bright colors.

Features and benefits:

- Infinite amount of colors and finishes: opaque, translucent, iridescent, metallic and large flake metallic
- High-gloss finish for vivid colors and contrasts
- Mactac® Open-Image WarrantySM
- 6,000 sq. ft. minimum
- Color match returned within 10 working days for customer approval
- Only 12 weeks to manufacture color after approval
- Available up to 60" wide
- Up to ten year outdoor durability
- Top quality adhesive performance
- Less shrinkage than industry standard

How to request a custom color match:

- Complete the custom color request form, available on mactac.com or contact your Mactac Customer Service professional to request form.
- Send in the form along with your color sample or PMS color match.
- Mactac will match the color and send you custom samples for approval.

How to place a custom color order:

- Sign the approval form stating the color meets your criteria and return as directed, with the custom sample.
- Provide a purchase order (6,000 sq. ft. minimum order).
- Provide a forecast for future order quantities.
- Custom orders may only be canceled within 24 hours of order entry.

6600 Cast Marking Film

A premium 2.0 mil cast film designed for applications over complex curves like rivets, corrugations and other irregular surfaces with up to ten years outdoor durability. The product is coated with a clear permanent, solvent-based acrylic adhesive protected with a 78# white kraft liner. These films are outstanding choices for fleet marking, container decals, marine, logos, automotive, equipment identification, signs, etc.

8300PRO Series

This 2.8 mil high gloss intermediate film is the workhorse of Mactac’s computer-aided signage vinyls and is built to last up to five years. The product is coated with a permanent clear solvent acrylic adhesive protected by a 83# white kraft layflat liner. The white vinyl features a gray liner which allows for quick weeding on complex designs. These films are designed for application on flat to slightly curved surfaces which makes them an excellent choice to deliver a wide range of messages on a variety of substrates. Up to 5 years outdoor durability.

General warranty statement:

Mactac guarantees that the Mactac graphic media, when utilized as recommended by Mactac will perform and provide indoor and “outdoor durability” (1) for the period stated in the corresponding product performance guide from the date of application and under normal vertical exposure conditions provided that the film is properly stored and applied. Application must take place within one year of the original shipment date from Mactac. This warranty is contingent on the Mactac material being processed according to Mactac recommendations in our Product Performance Guides and Technical Bulletins. With use of approved printer, inks, clear coats or overlaminating films and associated processing materials (2) in accordance with Mactac and printer manufacturer recommended written processing instructions (3) and installation in accordance to the preparation and application instructions.

Mactac’s warranty covers product quality regarding:

- a) Delivery of the correct product.
- b) Delivery of correctly identified product.
- c) Product produced within manufacturing specifications.
- d) The absence of visual or hidden defects in the pressure-sensitive construction.
- e) Correctly trimmed roll dimensions.

“Outdoor durability” for the purpose of this warranty is defined as no appreciable deterioration in the product when viewed from its intended viewing distance. This Open-Image Warranty will be based upon the least durable individual component or combination of components used in the Graphic production. Premature failure during the warranty period due to excessive cracking, crazing, blistering or loss of adhesion shall constitute a breach of warranty.

Warranted life is based on use in the central USA. Areas with greater weather extremes such as south Florida, the southwestern USA, Mexico and other similar regions in tropic, sub-tropic or high pollution areas cannot be expected to have the same durability. Therefore, durability in these regions will be 50% of, or two years less than, (whichever is greater) the durability published on the appropriate Performance Guides.

Individual warranty statements:

Mactac guarantees that the IMAGin® B-free Series of digital imaging media, and appropriate PERMACOLOR® overlaminating films, when utilized as recommended by Mactac, will perform as intended, and provide indoor and “outdoor durability” for the period as stated in the corresponding Product Performance guide(s). Durability begins on the date of application and is based on normal vertical exposure conditions provided that the film is properly stored and applied within one year of the original shipment date from Mactac.

Mactac requires the registration of each vehicle wrap. In the unlikely event of a future claim a completed and signed inspection report must be on file with Mactac.

Exclusive to B-free Vehicle wrap films, for any approved claim, where material is deemed to be out of specification, Mactac’s worry-free Guarantee allows for reimbursement, at Mactac’s discretion, up to, but not to exceed, two times (2X) the cost of the materials used to mark an individual automobile, bus, recreational vehicle, van or truck. The total amount of reimbursement will be limited to a maximum of 5% of the customer’s annual purchases for the first 90 days after purchase.

(MAC2012a, b and c):

Mactac offers specific product warranties for fleet graphic applications with pre-qualified graphic manufacturers. Separate warranties are given for screen printed or digitally printed graphic production. Unique Open Image Fleet warranties may be customized according to any other mix and match fleet graphic production process. Jobs must be registered with Date of application, fleet customer identification and contact information.

(MAC2850):

Mactac guarantees that the products recommended in TA2110 TuningFilms™ for Water Craft and TA2103 GVC929BFD for Watercraft and associated recommend laminates, when utilized as recommended by Mactac, will perform as intended, and provide Marine Durability for one year after date of application provided that the film has been properly stored and applied within one year of the original shipment date from Mactac.

(MAC2128):

Mactac warrants that specified Performance Graphics components will function as a floor graphics system when Mactac's published instructions for processing, application on, maintenance of, and removal from recommended surfaces is followed. This system is designed to provide image stability from UV light, slip resistance and durability for up to one year. All floor graphic markings are subject to wear and are not intended for permanent use. These are markings designed to be removed in one year or less.

(MAC2112):

Mactac guarantees that the IMAGin JT5000 Series digital imaging media, and PERMACOLOR® overlaminating films, when utilized as recommended by Mactac will provide indoor and outdoor durability. Durability is warranted for the period stated in the corresponding product performance guides and from the date of application under normal vertical exposure conditions. The film is warranted if properly stored and applied within one year of the original shipment date from Mactac.

(MAC1742):

Mactac warrants product quality and function of graphics produced using MACmark brand marking films. The product is warranted when used in accordance with recommendation on the corresponding Product Performance guides. All MACmark brand products including high performance 6600, 6700, 6800, 9800Pro, 9700Pro, Glass Décor 700, and 5700 Reflective, intermediate 8300Pro, 8900Pro and all specialty films, masking and application tapes are covered.

(MAC2554):

Mactac guarantees that the MACscreen Series media, when screen printed as recommended by Mactac, will perform and provide indoor and outdoor durability. Durability is warranted for the period stated in the corresponding product performance guide and from the date of application under normal vertical exposure conditions. The film is warranted if properly stored and applied within one year of the original shipment date from Mactac.

(MAC1757):

Mactac's PermaFlex warranty covers the product quality and performance, as stated in the corresponding Product Performance guides, of the PermaFlex® family of polycarbonate and vinyl overlaminating films. The warranty is good for two (2) years from date of image manufacture.

These unique films can be laminated to one or both sides of photographic prints, transparencies or digital images on a wide variety of media's. PermaFlex products provide protection, surface texture and rigidity which eliminates the need for mounting to traditional flat substrates in many applications. The resultant laminate will retain sufficient strength and flexibility to allow images to be used in non-flat configurations such as in temporary trade show and cylindrical displays. This feature also permits the laminates to be rolled for easy shipping and storage.

Open-Image WarrantySM for Mactac[®] Media and Laminates:

You make the choice of printer and ink that are best for your business and Mactac will be the partner that stands behind you. Simply provide us with your system and if we have not already tested the combination, we'll run a comprehensive series of tests to insure the system works and then warrant your application. If we find the components are not compatible we'll let you know that, too, and make alternative recommendations. It's that simple!

We stand behind you. And, we work with the most popular printer and ink suppliers to ensure product compatibility and durability.
