

Standard Size

Size: 9.84' x 13.12'L x 6.89'H

\$3129.20 + GST

- Includes one top vent, automatic vent opener (temperature based), shelf, door, front and back window
- 8mm Lexan Polycarbonate Thermoclear – Limited 10 year yellowing and breakage warranty
- Galvanized Steel Frame
- Drip Guard technology
- Wind resistant design
- Extendable (6.56' increments)

Extended Size

Size: 9.84'W x 19.68'L x 6.89'H

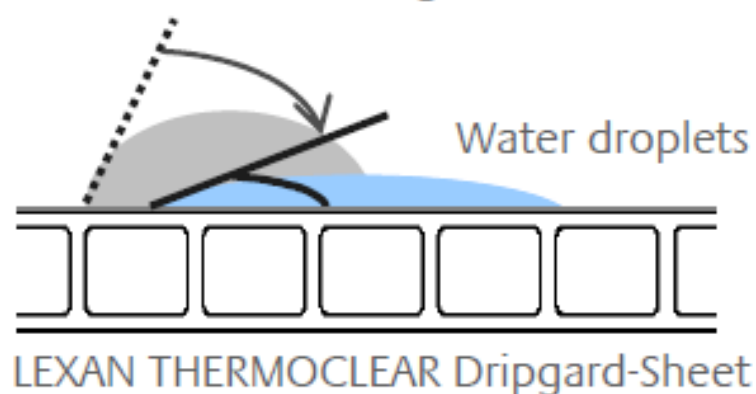

\$3890.90 + GST

- Includes all above, as well as additional 6.56' length

HOW DOES IT WORK

Reduces Contact Angle

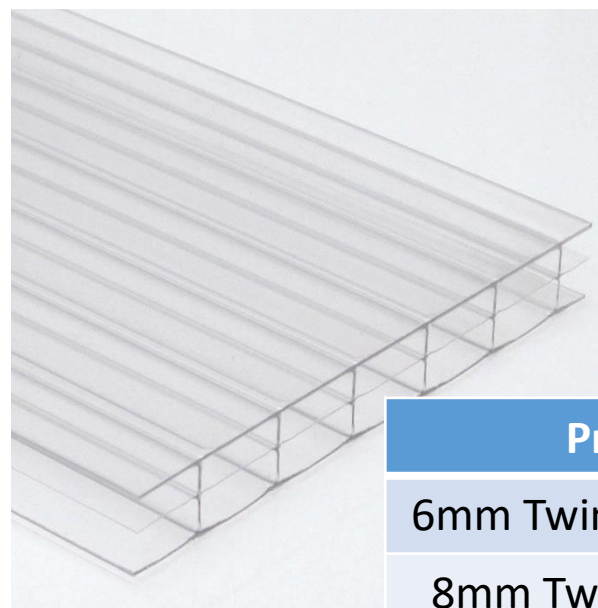

Drip Guard Technology

- A unique proprietary hydrophilic coating which reduces the contact angle of condensation droplets
- Light transmission is not blocked by condensation droplets
- Helps prevent dripping of water droplets onto crops/plants in your greenhouse

Lexan Polycarbonate Thermoclear

- Lighter weight than glass
- Impact resistant
- Durable
- Flexible
- High light transmission
- Weather and UV resistant
- Excellent thermal properties

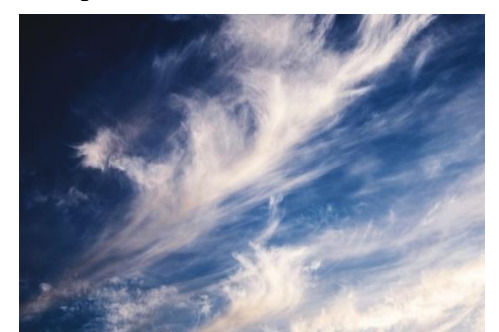

R-value measures how well insulation can prevent the flow of heat into and out of the greenhouse. Higher R-value means greater insulation performance

Product	R-value (ft ² hrF/BTU)
6mm Twin Wall (others)	1.59
8mm Twin Wall (ours)	1.74

SNOW LOAD
33 lbs/SF

WIND RESISTANCE
Up to 100km/h*

*with proper install
