

## Standard Size

Size: 9.84' x 13.12'L x 6.89'H

**\$2,675.00 + GST**

- Includes one top vent, automatic vent opener (temperature based), shelf, door, front and back window
- 8mm Lexan Polycarbonate Thermoclear – Limited 10 year yellowing and breakage warranty
- Galvanized Steel Frame
- Drip Guard technology
- Wind resistant design
- Extendable (6.56' increments)

## Mini Size

Size: 9.84' x 6.56'L x 6.89'H

**\$1,950.00 + GST**

- Does not include roof vent or shelf

## Extended Size

Size: 9.84'W x 19.68'L x 6.89'H

**\$3,475.00 + GST**

- Includes all above, as well as additional 6.56' length

**Come see us at the Edmonton Home and Garden show! March 21-24**

**\*\*Volume discounts are available for purchases of multiple units\*\***

## HOW DOES IT WORK

Reduces Contact Angle

LEXAN THERMOCLEAR Dripgard-Sheet

## Drip Guard Technology

- A unique proprietary hydrophilic coating which reduces the contact angle of condensation droplets
- Light transmission is not blocked by condensation droplets
- Helps prevent dripping of water droplets onto crops/plants in your greenhouse

## Lexan Polycarbonate Thermoclear

- Lighter weight than glass
- Impact resistant
- Durable
- Flexible
- High light transmission
- Weather and UV resistant
- Excellent thermal properties

R-value measures how well insulation can prevent the flow of heat into and out of the greenhouse. Higher R-value means greater insulation performance

Product	R-value (ft <sup>2</sup> hrF/BTU)
6mm Twin Wall (others)	1.59
8mm Twin Wall (ours)	1.74

**SNOW LOAD**  
**33 lbs/SF**

**WIND RESISTANCE**  
**Up to 100km/h\***

**\*with proper install**
